

TERESA DALTON, RN, MBA, CPC

Teresa Dalton is a Senior Director in the Pittsburgh office of Compliance Concepts, Inc. Teresa has over 18 years clinical and consulting experience in the health care industry. As a registered nurse, she worked with adult patients in general surgery, neurosurgery, infectious disease and oncology. Teresa also worked in utilization review, as a nurse reviewer for a large insurance company. Her consulting experience includes management advisory services with a specialization in coding and billing for hospital and physician services. With her consulting engagements, Teresa has performed several medical record reviews focusing on medical record documentation to support the medical necessity of services performed, the specific diagnosis and/or procedure codes reported and the physician documentation associated with patient encounters. She has worked with various types of providers from small hospitals to large university affiliated hospitals and small physician practices to large university affiliated practice plans, and has recently focused her efforts on the development of corporate compliance programs.
